**THE EFFECTIVENESS OF CLASSICAL MUSIC (MOZART) AGAINST
THE INTEREST AND MOTIVATION LEARNING OF SCHOOL AGE
CHILDREN AT PUBLIC ELEMENTARY SCHOOL 4 TAHUNAN JEPARA.**

67 pages + xiv + 8 tables + 2 pictures + 12 appendices

Background: *The low interest and low motivation to learn will affect the success of students in achieving understanding and achievement while learning, one of the stimulation for interest and motivation to learn that is classical music of Mozart. The purpose of this research is to know the effectiveness of classical music (Mozart) to the interest and motivation of schoolchildren in SD N 4 Tahunan Jepara.*

Methods: *This research type was Pre Experiment, using One Group Pretest and Posttest Design approach. Sampling in this study using total sampling technique, that was by selecting all members of the population used as a sample and the number of respondents 23 children. Instruments used were Mozart classical music and questionnaire sheets. Data analysis using paired test t test in interest learning variable and alternative test of Wilcoxon in motivation learning variable.*

Results: *Based on the result of research, interest and motivation of the respondents before treatment showed the mean score of interest that was 35.26 and standard deviation 3.44. While on the mean score of motivation was 64.48 and standard deviation 7.82. Interest and motivation of study respondents after treatment showed a mean score of interest that was 35.91 and standard deviation 4.69. While on median result of motivation score that was 65, minimum score that was 45 and maximum score was 74. result of t paired test p value = 0,355 or p value > 0,05 and test result wilcoxon p value = .0,443 or p value > 0,05. The test results showed no effectiveness between before and after research.*

Conclusion: *The conclusion of this research shows that there is no effectiveness of classical music (Mozart) to the interest and motivation of school age children in SD N 4 Tahunan Jepara.*

Keywords: *Classical Music, Mozart, Interest Learning, Motivation Learning*
