

ABSTRACT

Study aims to analyze company size (SIZE), Dewan Independent Commissioner (BDIND), Audit Committee (AUDCOM), and Corporate Social Responsibility (CSR) on earnings persistence and to obtain empirical evidence by testing these variables. The sample in this study are manufacturing companies listed on the Indonesia Stock Exchange in 2012-2017.

Sampling uses purpose sampling by getting a sample of 113 data. The sample must meet several criteria, namely: a) Manufacturing companies that consistently go public on the Indonesia Stock Exchange (IDX) during the period of research during the period 2012 - 2017, b) Manufacturing companies that regularly publish complete financial reports in the period of research during the 2012 period - 2017, c) Manufacturing companies that use rupiah financial reporting currency during the study period during the period 2012 - 2017, d) Manufacturing companies that have never experienced a loss in the period of research during the period 2012 - 2017.

The analysis technique used is multiple linear regression analysis. This study reveals that firm size (SIZE) has a positive effect on earnings persistence. Whereas Dewan Independent Commissioner (BDIND), Audit Committee (AUDCOM), and Corporate Social Responsibility (CSR) have a negative effect on earnings persistence.
