

**CHARACTER OF ECONOMIC SPACES IN FISHERMEN SETTLEMENTS  
MORODEMAK VILLAGE**

**Abstract**

Settlements are closely related to the characteristics of the environment and the dominant behavior of its users. Settlements formed from people who still have family ties through marriage will be different from the forms of settlements that are formed because of similar livelihoods. The research objective was to find the Character of Economic Space in Morodemak Village Fishermen's Settlement by using the Deductive Qualitative Rationalistic Method. The location of fishing settlements located in coastal areas, resulting in a lot of community activities and interactions. Economic resources in coastal areas cause a lot of economic activities related to fisheries. These activities will bring up the character of space in the environment. In Morodemak Village there are characteristics of economic space that are distinguished into the character of economic space utilization of environmental resources (seaweed, rebon, predatory fish), economic space characteristics of fish yield processing (drying of fish, making terasi, fish crackers), economic space characteristics support (boat mooring, shipbuilding, ship machinery workshops, public toilet services)

**Keywords** : Settlements, Fishermen's Settlements, Space, Economic Activities.

## **KARAKTER RUANG EKONOMI DI PERMUKIMAN NELAYAN DESA MORODEMAK**

### **Abstrak**

Permukiman sangat berkaitan erat dengan karakteristik lingkungan dan perilaku penggunanya yang dominan. Permukiman yang terbentuk dari orang-orang yang masih mempunyai ikatan keluarga lewat perkawinan, akan berbeda dengan bentuk permukiman yang dibentuk oleh karena kesamaan mata pencaharian. Tujuan penelitian untuk menemukan Karakter Ruang Ekonomi di Permukiman Nelayan Desa Morodemak dengan menggunakan Metode Deduktif Kualitatif Rasionalistik. Letak permukiman nelayan yang berada di wilayah pesisir, mengakibatkan banyaknya aktivitas dan interaksi masyarakat. Sumberdaya ekonomi di kawasan pesisir menimbulkan banyak aktivitas ekonomi yang berkaitan dengan perikanan. Aktivitas-aktivitas ini akan memunculkan karakter ruang yang terdapat pada lingkungan tersebut. Pada Permukiman nelayan Desa Morodemak terdapat karakter ruang ekonomi yang dibedakan menjadi karakter ruang ekonomi pemanfaatan Sumber daya lingkungan (rumput laut, rebon tambak, ikan predator), Karakter ruang ekonomi Pengolahan Hasil ikan (pengeringan ikan, terasi ikan, kerupuk ikan), Karakter ruang ekonomi penunjang (Perahu tambatan, pembuatan kapal, bengkel mesin kapal, jasa WC Umum)

**Kata Kunci** : Permukiman, Permukiman Nelayan, Ruang, Aktivitas Ekonomi.
