MOTTO

“On this day every soul be rewarded with what it earned, no one harmed today.
Allah is swift at reckoning”.

(QS. Al Ghafir : 17)

“Behold along with the difficulty there is relief. Therefore when you're done (do
something else). And hope to the Lord.

(QS. Al Insyirah : 6-8)

“Everything went well even though everything seems to go wrong at all if you are
honest with yourself. Instead, everything is not good for you even if everything
looks right, if you are not honest with yourself”.

(Mahatma Gandhi)

“Humans are given the ability by God for hope and expect, till then he hopes to
take the negligence of his eyelids, so as to witness the true self. And who see the
truth of real life for himself, for all human beings and the universe”

(Kahlil Gibran)

ACKNOWLEDGEMENT

Alhamdulillahirabbil'alamin, Innalhamdalillah nahmaduhu wa nasta'iyuhu. Upon Ridho and Rahmat Allah Subhana wa Ta'ala this final assignment report can be completed.

In preparing this report, I was contact with many people, researches, academicians, and practitioners. They have contributed towards my understanding and thoughts. In particular, I wish to express my sincere appreciation to my main study supervisor, Ir. Nina Anindyawati ST., MT., for for his encourages, guidance, criticism, and friendship. I am also very thankful to my Co – supervisor, Ir. Gatot Rusbintardjo, M.R.Eng MSc., Ph.D. for his guidance, advice and motivation. Without their continued support and interest, this final assignment report would not have been the same as presented here.

My special thanks are addressed to Dean of the Engineering Faculty of UNISSULA, Bapak Ir. H. Rachmat Mudiyo, MT., Ph.D. and Head of Department of Civil Engineering, Faculty of Engineering UNISSULA, Bapak Dr. Ari Sentani, ST., MSc, for permission, to take the final assignment as the requirement for reaching Bachelor Degree in Civil Engineering in Faculty of Engineering UNISSULA.

I also would like to thank all the staff of the Administration Staff of Engineering Faculty who always help me in administration aid, also to thank for Bapak Ripto and all the staff of Soil Mechanic Laboratory of Engineering Faculty of UNISSULA who has helped us collecting data during the lab experiment time.

Very special thanks are given to my beloved Parents, my father Cahyanto and my mother Lailati, their patience, prayers and understanding during this study were always a blessing. Also my brothers Aldila Bachtawar Zardari and Aldila Widad Fatawa, as well as my sister-in-law Najmah Riajani Garniera who always inspiring me to be good sister.

Of course for Puput Afrilia as partner who have worked hard and fought together to resolve this final assignment.

Thanks to All of my friends in Faculty of Civil Engineering 2014 especially class D for their support. Thanks to my best friend, Raditya Putra Pratama, Isna Nurul Komariah, Viki Mausufah, Nahla, and Mayangdevi Suryaning Putri who always caring and provide support.
