ACKNOWLEDGEMENT

Bismillahirrahmanirrahiim. Thanks the author to Allah SWT, thanks to His grace and guidance the author can complete this essay. Prayers and greetings were poured out on the Prophet Muhammad, his family and friends.

Furthermore, the author would like to convey infinite gratitude to all parties who helped smooth the writing of this essay, both in the form of moral and material encouragement. Because the author believes without help and support, it is difficult for the writer to finish writing this description.

In preparing this report, i was contact with many people, researches, academicians, and practitioners. They have contributed towards my understanding and thoughts. In particular, i wish to express my sincere appreciation to my study supervisor Dr. Abdul Rochim, ST.,MT and Ir. H. Gatot Rusbintardjo, M.R.Eng, MSc., Ph.D. who have taken the time to guide the authors in completing this essay, thanks you for his encourages, guidance, criticism, advice, motivation and friendship. Without their continued support and interest, this final assignment report would not have been the same as presented here.

Special thanks are addressed to Dean of the Engineering Faculty of UNISSULA, Ir. H. Rachmat Mudiyo MT., Ph.,D. and Head of Department of Civil Engineering, Faculty of Engineering UNISSULA, Bapak Ari Sentani, ST. MSc.. for permission, to take the final assignment as the requirement for reaching Bachelor Degree in Civil Engineering in Faculty of Engineering UNISSULA.

I would like to thank to Bapak M. Yusrizal, ST, MT which has helped us collecting data in the Jakarta – Bandung high speed railway project.

A very special expression of thanks and appreciation from the author with the humble and respectfulness of the two beloved parents of the author, the father of Agus Sumarto and Mrs. Toibah, with all their sacrifices, will never forget their services. Prayer of blessings, advice and guidance from them will be the most effective moral impetus for the continuation of the study authors to date. And to my sister Elfrida Kharisanti Utami, Lulu Anggita Fitri, Laera Elita Rosalinda who always give support to author.

Of course for Vyxy Anggreini as partner who has worked hard and fought together to resolve this final assignment.

Thanks to Moh. Alfin Naufal, ST, Reza Wahyu Nugraha, ST, and Zulfi Rizki Rosadi, ST, who always want to spare their time to give motivation and advice. Also thanks to All of my friends in Department of Civil Engineering 2014 especially class D for have a wonderful memories and support.

Finally the authors hope that the good deeds of all parties that have helped the authors in completing this thesis get a reward from the mercy of Allah SWT. Hopefully what has been written in this thesis can be beneficial for all parties. Aamiin ya Robbal 'alamin
