**Hubungan Dukungan Kader Terhadap Kunjungan Posyandu Lansia Di
Kelurahan GenukSari**

68 hal + 10 tabel + x

Latar Belakang : Agar posyandu berjalan dengan baik maka perlu dukungan dari kader, kader diharapkan bisa menjadi *agent of change*. Peran kader sebagai *agent of change*, dalam upaya pembangunan dapat diwujudkan dengan memberikan dukungan berupa berbagi pelayanan, menggerakkan serta mengajak usia lanjut untuk hadir dan berpartisipasi dalam kegiatan posyandu lansia. Tujuan penelitian ini adalah untuk mengetahui Hubungan Dukungan Kader Terhadap Kunjungan Posyandu Lansia Di Kelurahan Genuk Sari.

Metode : Penelitian ini merupakan jenis penelitian *explanatory research* menggunakan pendekatan *cross sectional*. Pengumpulan data menggunakan kuesioner. Jumlah responden sebanyak 93 lansia dengan teknik *Purposive cluster random sampling*. Untuk mengetahui hubungan variabel, peneliti menggunakan statistik Non Parametrik Uji Korelasi Spearman.

Hasil : Hasil analisis dari 93 responden didapati sebagian besar responden mendapatkan dukungan kader kurang dan mempunyai rata-rata kunjungan posyandu lansia sebanyak 3,87 kali kunjungan dengan minimal kunjungan 3 kali dan maksimal kunjungan sebanyak 12 kali

Kesimpulan : Hasil analisis dari 93 responden, penelitian ini menunjukkan hasil terdapat hubungan yang signifikan antara dukungan kader dengan kunjungan posyandu lansia dengan *p-value* 0,001 dengan nilai korelasi 0,849 yang termasuk dalam hubungan sangat kuat.

Kata Kunci : Kunjungan, dukungan kader, lansia, posyandu

ABSTRACT

Dilla Maliyya Hilmi

Relationship of Officer Sosial Support to Visits of Elderly Posyandu in GenukSari Village

Background: In order for the Posyandu to run well, it needs support from Officer Sosial Support, Officer Sosial Support are expected to become agents of change. The role of Officer Sosial Support as agents of change, in the development effort can be realized by providing support in the form of sharing services, mobilizing and inviting the elderly to attend and participate in elderly posyandu activities. The purpose of this study was to determine the relationship of Officer Sosial Support support to the visits of elderly Posyandu in GenukSari Village

Method: This research is an explanatory research type using a cross sectional approach. Data collection using a questionnaire. The number of respondents is 93 elderly with purposive cluster random sampling technique. To find out the relationship of variables, researchers used Non Parametric statistics Spearman Correlation Test.

Result: The results of the analysis of 93 respondents found that most respondents received less Officer Sosial support and had an average of elderly visits to Posyandu as much as 3.87 visits with a minimum visit of 3 times and a maximum of 12 visits.

Conclusion: The results of the analysis of 93 respondents, this study shows the results there is a significant relationship between the support of Officer Sosial Support with the elderly posyandu visit with p-value 0.001 with a correlation value of 0.849 which is included in the relationship is very strong.

Keywords:

Visits, support from cadres, elderly, posyandu.
