

ABSTRAK

Student exchange merupakan salah satu program yang sudah banyak diminati oleh para pelajar. Mudah-mudahan para pelajar untuk memperoleh informasi mengenai tawaran *student exchange* serta pendaftarannya menyebabkan peningkatan pengiriman peserta di setiap tahunnya. Namun masih banyak peserta yang khawatir dan bingung mengenai bagaimana kondisi dan cara menangani permasalahan selama di lokasi. Judul penelitian ini adalah *STUDENT EXCHANGE ASIA SUMMER PROGRAM* di DONGSEO UNIVERSITY BUSAN, KOREA SELATAN.

Tugas akhir ini menggunakan jenis penelitian di lapangan (*field research*) yang mana pengumpulan data dilakukan di lapangan atau lokasi penelitian yang dipilih sebagai tempat untuk menyelidiki gejala objektif yang terjadi di lokasi. Objek penelitiannya yaitu Dongseo University Busan, Korea Selatan. Metode pengumpulan datanya menggunakan metode dokumentasi, sedangkan teknik analisis data menggunakan teknik deskriptif analisisnya yaitu guna menjelaskan segala kegiatan yang terjadi selama di lokasi *student exchange*.

Hasil tugas akhir *student exchange* tidak menjelaskan secara mendetail untuk setiap perkuliahan yang diajarkan di tempat kuliah selama kegiatan *student exchange* berlangsung. Tugas akhir ini lebih diarahkan ke arah kegiatan dan permasalahan apa saja seperti *culture shocks* dan lain sebagainya yang terjadi selama program *student exchange* berlangsung.

Kata Kunci : Student Exchange, Kegiatan

ABSTRACT

Student exchange is one program that has been in great demand by students. It is easy for students to get information about student exchange offers and their enrollment, causing an increase in participants' shipments each year. However, there were still many participants who were worried and confused about how the conditions and how to deal with problems during the location. The title of this study is STUDENT EXCHANGE ASIA SUMMER PROGRAM at DONGSEO UNIVERSITY BUSAN, SOUTH KOREA.

This final project uses a type of research in the field (field research) in which data collection is carried out in the field or research location selected as a place to investigate the objective symptoms that occur at the site. The object of the research is Dongseo University Busan, South Korea. The data collection method uses the documentation method, while the data analysis technique uses descriptive analysis techniques, namely to explain all activities that occur during the student exchange location.

The final student exchange assignments did not explain in detail for each lecture taught at the lecture place during the student exchange activities. This final assignment is more directed towards any activities and problems such as culture shocks and others that occur during the student exchange program.
