mind in speaking skill. By using Self-Directed Dialogue Technique, it can used in brainstorming for students to help them develop their ideas in speaking skill. By using this technique, students can put their thoughts systematically and chronologically.

2. For students

    a. The students can use Self-Directed Dialogue Technique as a guidance to increase their ability in speaking and motivate them in learning English better.

    b. Using Self-Directed Dialogue Technique can make the students to be more creative to express their ideas, opinion and information orally, and the students will be more confidence to speak English in front of their friends.

3. For Further research

    For the other researchers and readers, this research can be a reference about one of the techniques which can be applied in teaching and learning speaking skills.
