ABSTRAK

Anak merupakan sumber pelengkap dalam pernikahan, karena anak termasuk kebahagiaan dalam pernikahan dengan adanya anak pernikahan merasa jauh lebih sempurna. Peneliti ini bertujuan untuk mengetahui gambaran kepuasan pernikahan pada pasangan suami istri yang belum dikarunia keturunan. Peneliti akan mengungkap bagaimana rasa kepuasan pernikahan itu muncul pada pasangan suami istri yang belum dikarunia keturunan. Hal tersebut akan diungkap dalam beberapa aspek kepuasan pernikahan. Subjek penelitian berjumlah 3 pasangan suami istri yang belum dikarunia keturunan. Jenis penelitian ini yaitu kualitatif dengan pendekatan studi fenomenologi. Metode pengumpulan data yaitu observasi dan wawancara mendalam. Hasil penelitian ini menunjukkan bahwa, setiap subjek memiliki gambaran kepuasan pernikahan yang berbeda serta alasan yang berbeda-beda. Subjek pertama merasa puas karena subjek pertama menjalankan pernikahan dengan ikhlas dan di niatkan karena ibadah. Subjek kedua belum merasa puas dalam menjalankan pernikahannya, karena belum adanya keturunan sedangkan untuk subjek ke tiga merasa puas meskipun belum memiliki keturunan sendiri, meskipun subjek ke tiga akan mengadopsi anak dari adik subjek.

Kata Kunci : Kepuasan Pernikahan, Tidak dikarunia keturunan

MARRIAGE SATISFACTION OF COUPLES WHO HAVE NOT BEEN GIVEN OFFSPRING YET

ABSTRACT

The child is a complementary source in marriage, because the child belongs to the marriage in the presence of a wedding child feels much more perfect. The researcher aims to determine the depiction of marriage satisfaction to a married couple who have not yet been endowed with offspring. Researchers will uncover how the marital satisfaction of the marriage appears to a married couple who have not yet been endowed with offspring. It will be revealed in some aspects of marriage satisfaction. The research subject amounted to 3 married couples who have not been endowed with offspring. This type of research is qualitative with a study approach phenomenology. Data collection methods are observations and interviews in-depth. The results of this study show that, each subject has a distinct picture of marital satisfaction and different reasons. The first subject is satisfied because the first subject runs a marriage willingly and is advised of worship. The second subject has not been satisfied in running his wedding, because the absence of offspring for the third subject has not been satisfied because it has not had its own offspring, although the third subject will adopt the child of the subject's sister.

Keywords : Wedding Satisfaction, Unbounty of descendants
