

## ABSTRACT

**Bima Ilyas**, 2020. The Effectiveness of Audio Lingual Method to Improve Student's Speaking Achievement (A Collaborative-Action Research on the Tenth Grade Student of SMA 10 Semarang in the Academic Year 2019/2020) Action Research. A final Project. English Education Department, College of Language and Communication, Sultan Agung Islamic University Semarang. The Advisor: Hartono, S.S.,M.Pd.

**Keywords:** Audio-Lingual Method, Speaking Skill.

This study was aimed to describe how the process of Audio-Lingual Method in improving speaking skill of Tenth Grade Students of SMA 10 Semarang. To achieve the objective of the study, the researcher conducted collaborative action research done together with the English teacher of SMA N 10 Semarang. The population of the study was 310 students of SMA N 10 Semarang, and only 36 students were used as example for the study.

There were 4 steps conducted in order to collect the primary data. The first step was a pre-test, the second step was Teaching and Learning Process. The third was interview. The last step was post-test.

Based on this research of stud, in effectiveness of ALM could improve student's activity, learning motivation, interest, speaking achievement and confidence. The students' speaking skill after the treatment is getting better than before. It was proven by their active participation during the teaching and learning and the improvement of study result that could be shown from the result of pre-test (23.44) and pre-test (44.77). The main factor that affected this improvement was the interest of the students in joining the teaching and learning process through ALM.

## INTISARI

**Ilyas,Bima.** 2019 *The Effectiveness of Audio-Lingual Method to Improve Students' Speaking Achievement (A Collaborative Action Research on the Tenth Grade Students of SMA Negeri 10 Semarang in the Academic Year 2019/2020) Action Research.* A final Project. English Education Department, College of Language and Communication Sultan Agung Islamic University Semarang. Dosen Pembimbing: Hartono,S.S., M.Pd. Dosen Pembimbing Kedua: Huyi Intan Sari,M.Pd.

**Keywords:** Metode audio lingual, kemampuan berbicara.

Penelitian ini bertujuan untuk mendeskripsikan bagaimana proses metode audio lingual ALM dalam meningkatkan kemampuan berbicara siswa kelas X di SMA Negeri 10 Semarang. Untuk mencaoai tujuan dari penelitian ini, peneliti melaksanakan penelitian tindakan kelas kolaboratif bersama guru bahasa inggris SMA Negeri 10 Semarang. Populasi dari penelitian ini adalah 310 siswa SMA Negeri 10 Semarang, hanya 36 siswa yang diambil sebagai sampel.

Ada 4 tahapan yang digunakan untuk mengumpulkan data premier. Tahapan pertama adalah pre-test. Tahapan kedua adalah proses pengajaran. Tahapan ketiga adalah wawancara. Tahapan terakhir adalah post-test.

Berdasarkan hassil penelitian ini, dalam mengefektifkan ALM dapat meningkatkan aktifitas, motivasi belajar, ketertarikan, prestasi speaking siswa dan percaya diri. Kemampuan speaking siswa setelah perlakuan menjadi lebih baik darri sebelumnya. Bisa dibuktikan dengan partisipasi aktif mereka selama pembelajaran dan peningkatan hasil belajar yang dapat dilihat dari hasil pre-test (23,44) dan pre-test (44,77). Faktor utama yang mempengaruhi peningkatan ini adalah minat siswa dalam mengikuti proses pengajaran dan pembelajaran melalu Metode Audio Lingual.
