The research focuses on the application of the values of nationalism in SD Sronдол Wetan 02. The purpose of this study is to determine the implementation of the application of the values of nationalism in SD Sronдол Wetan 02. The study used a qualitative approach with qualitative descriptive qualitative research. Data collection techniques are carried out through interviews, questionnaires, and documentation which are analyzed by steps, namely data reduction, data presentation and drawing conclusions. The results showed that the application of nationalism values in students has been instilled by the principal and teachers who teach, foster and guide students in and outside the hours of teaching and learning activities at school. The way to apply the spirit of nationalism in SDN Sronдол Wetan 02 is by holding an apple ceremony every morning, playing nationalism songs before entering teaching and learning activities, carrying out ceremonial activities on Mondays and when commemorating national holidays, various kinds of extracurricular activities which must be followed by students. The application of nationalism is also taught during teaching and learning activities carried out by each class teacher. This application can be taught through a theme book that contains the values of Pancasila in everyday life.
