HUBUNGAN *TRY OUT* DENGAN KELULUSAN UJI KOMPETENSI PROGRAM STUDI NERS FAKULTAS ILMU KEPERAWATAN UNIVERSITAS ISLAM SULTAN AGUNG SEMARANG

43 halaman + 7 tabel + 2 gambar + 6 lampiran + XV

Penelitian ini dilakukan untuk mengetahui apakah terdapat Hubungan *Try out* dengan kelulusan uji kompetensi program studi ners fakultas ilmu keperawatan universitas islam sultan agung semarang. Metode Penelitian ini menggunakan jenis penelitian kuantitatif dengan menggunakan pendekatan *Cross Sectional*. Sampel terdiri dari 103 responden mahasiswa ners IX Keperawatan Unissula dengan menggunakan teknik *total sampling* dengan menggunakan dokumentasi. Hasil penelitian ini ditemukan bahwa diketahui nilai signifikansi antara variabel *try out* dengan Ujian Kompetensi didapatkan $p\text{-value } 0,002 \leq 0,05$ maka dapat disimpulkan bahwa terdapat hubungan yang signifikan (nyata) antara *try out* dengan Nilai Ujian Kompetensi. Adapun keeratan hubungan antar variabel bersifat lemah yaitu nilai koefisien korelasi sebesar 0,296 dengan arah hubungan positif artinya semakin baik nilai *try out* maka akan semakin tinggi kelulusan uji kompetensi.

Kata Kunci : *try out*, kelulusan ukom

TRY OUT RELATIONSHIP WITH THE GRADUATION OF THE COMPETENCY TEST OF NERS STUDY PROGRAM FACULTY OF NURSING SCIENCE ISLAMIC UNIVERSITY SULTAN AGUNG SEMARANG

43 pages + 7 tables + 2 pictures +6 appendices +xv

This research was conducted to determine whether there is a Try out relationship with passing the competency test of the Nurse Study Program, Faculty of Nursing, Sultan Agung Islamic University, Semarang. This research method uses quantitative research using a cross sectional approach. The sample consisted of 103 respondents from Unissula Nursing IX Nurse students using total sampling technique using documentation. The results of this study found that it is known that the significance value between the try out variable and the Competency Test obtained a p-value of $0.002 \leq 0.05$, so it can be concluded that there is a significant (real) relationship between the try out and the Competency Test Score. The closeness of the relationship between variables is weak, namely the coefficient of correlation is 0.296 with the direction of the positive relationship, meaning that the better the try out value, the higher the passing of the competency test.

Keywords : try out, ukom graduation
