Kata Kunci: *Mudharabah, Musyarakah, Murabahah, Non Performing Financing, Return on Asset*

ABSTRACT

This research is implied to find out about how the influence of profit sharing financing for mudharabah, musyarakah and murabahah with moderation of non-performing financing on the financial performance of Islamic Commercial Banks in Indonesia. The population in this study are Islamic Commercial Banks that have been registered with Bank Indonesia during the period 2013-2019. Based on the results of the sample analysis carried out, the researcher obtained data on 9 Islamic Commercial Banks in accordance with the provisions of the study. The results of the research analysis conclude that mudharabah financing has a negative and significant effect on the value of return on assets. Musyarakah financing has a negative and significant effect on the value of return on assets. Murabahah financing has a positive and significant effect on the value of return on assets. Non Performing Financing is able to strengthen the negative effect of murabahah financing on the value of return on assets. Non Performing Financing NPF is able to strengthen the negative effect of musharaka financing on the value of return on assets. Non Performing Financing NPF is able to weaken the positive effect of murabahah financing on the value of return on assets

Keywords: Mudharabah, Musharaka, Murabahah, Non Performing Financing, Return on Assets
