BAB I PENDAHULUAN............................................................................... 1
  1.1 Latar Belakang.................................................................................... 1
  1.2 Rumusan Masalah ............................................................................. 3
  1.3 Tujuan Penelitian............................................................................... 3
    1.3.1 Tujuan Umum ............................................................................ 3
    1.3.2 Tujuan Khusus .......................................................................... 4
  1.4 Manfaat.............................................................................................. 4
    1.4.1 Manfaat teoritis ....................................................................... 4
    1.4.2 Manfaat praktis ....................................................................... 4
BAB II TINJAUAN PUSTAKA...................................................................... 5
  2.1 Kanker payudara................................................................................. 5
2.1.1. Etiologi ........................................................................ 5
2.1.2. Klasifikasi ................................................................... 5
  2.1.2.1. Kanker payudara non invasif ......................... 5
    2.1.2.1.1 Karsinoma intraduktus non invasif 5
    2.1.2.1.2 Karsinoma lobular in situ ..................... 5
  2.1.2.2. Kanker payudara invasif ................................. 6
    2.1.2.2.1 Karsinoma duktus invasif ...................... 6
    2.1.2.2.2 Karsinoma lobular invasif ................. 6
    2.1.2.2.3 Karsinoma musinosum ..................... 6
    2.1.2.2.4 Karsinoma meduler ......................... 7
    2.1.2.2.5 Karsinoma papiler invasif ............... 7
    2.1.2.2.6 Karsinoma tubuler ....................... 7
2.2 Karsinogenesis ........................................................................ 7
  2.2.1 Protoonkogen-onkogen ........................................... 8
    2.2.1.1 Point mutation protoonkogen-onkogen ........ 8
      2.2.1.1.1 No detectable effect ....................... 9
      2.2.1.1.2 Missense effect ............................. 9
    2.2.1.2 Translokasi kromosom ............................. 9
    2.2.1.3 Amplifikasi gen ........................................ 10
  2.2.2 Gen tumor supressor ............................................. 10
  2.2.3 Gen repair .......................................................... 10
2.3 Apoptosis ........................................................................ 11
  2.3.1 Pengertian ............................................................. 11
