DAFTAR LAMPIRAN ..................................................................................................... xiii
INTISARI ...................................................................................................................... xiv

BAB I PENDAHULUAN ................................................................................................. 1
  1.1. Latar Belakang .................................................................................................... 1
  1.2. Rumusan Masalah ............................................................................................ 3
  1.3. Tujuan Penelitian .............................................................................................. 3
      1.3.1 Tujuan Umum .............................................................................................. 3
      1.3.2 Tujuan Khusus .......................................................................................... 3
  1.4. Manfaat Penelitian ............................................................................................ 4
      1.4.1 Manfaat Teoritis ....................................................................................... 4
      1.4.2 Manfaat Praktis ....................................................................................... 4

BAB II TINJAUAN PUSTAKA ...................................................................................... 5
  2.1. Penyembuhan Luka Bakar ............................................................................... 5
2.1.1. Derajat Luka Bakar .................................................. 5
  2.1.1.1. Derajat 1 .................................................. 5
  2.1.1.2. Derajat 2 .................................................. 6
  2.1.1.3. Derajat 3 .................................................. 7
  2.1.1.4. Derajat 4 .................................................. 7

2.1.2. Fase Penyembuhan Luka Bakar .................................. 7
  2.1.2.1. Fase Inflamasi .............................................. 7
  2.1.2.2. Fase Fibroblasia .......................................... 8
  2.1.2.3. Fase Remodelling ......................................... 9

2.1.3. Faktor-faktor yang mempengaruhi penyembuhan luka bakar .................................................. 11

2.2. Fibroblas ................................................................. 12
  2.2.1. Morfologi .......................................................... 13
  2.2.2. Fungsi .............................................................. 13
    2.2.2.1. Fungsi Fibroblas pada penyembuhan luka ....... 14

2.3. Binahong ............................................................... 14
  2.3.1. Taksonomi ......................................................... 15
  2.3.2. Morfologi .......................................................... 15
  2.3.3. Kandungan Kimia ............................................... 16
    2.3.3.1. Saponin ..................................................... 16
    2.3.3.2. Terpenoid .................................................. 16
    2.3.3.3. Flavonoid .................................................. 16
    2.3.3.4. Polifenol ................................................... 17
    2.3.3.5. Alkaloid .................................................... 17
2.4. Pengaruh salep ekstrak Binahong 40% terhadap jumlah fibroblast pada penyembuhan luka bakar ........................................... 17
2.5. Kerangka Teori .................................................................. 19
2.6. Kerangka Konsep ............................................................... 20
2.7. Hipotesis ............................................................................. 20

BAB III METODE PENELITIAN ................................................. 21

3.1. Jenis Penelitian dan Rancangan Penelitian ......................... 21
3.2. Variabel dan Definisi Operasional ....................................... 21
   3.2.1. Variabel Penelitian ..................................................... 21
   3.2.1.1 Variabel Bebas ....................................................... 21
   3.2.1.2 Variabel tergantung ................................................. 21
   3.2.2. Definisi Operasional ................................................... 21
   3.2.2.1. Variabel Bebas ..................................................... 21
   3.2.2.2. Variabel Tergantung ............................................. 22
3.3. Populasi Dan Sampel .......................................................... 22
   3.3.1 Populasi Penelitian ..................................................... 22
   3.3.2 Sampel ...................................................................... 22
   3.3.2.1. Kriteria Inklusi .................................................... 22
   3.3.2.2. Kriteria Eksklusi .................................................. 23
   3.3.2.2. Drop out ............................................................. 23
3.4. Instrumen dan Bahan Penelitian ......................................... 23
   3.4.1 Instrumen Penelitian .................................................. 23
   3.4.2 Bahan Penelitian ......................................................... 23
3.5. Cara Penelitian .............................................................. 23
   3.5.1 Persiapan Sampel ................................................ 23
   3.5.2 Ekstrak Sampel....................................................... 24
   3.5.3. Pengelompokan dan Perlakuan Mencit .................. 26
   3.5.4. Lama Perlakuan...................................................... 27
   3.5.5. Pembuatan Sediaan Preparat Paraffin ................. 27
3.6. Alur penelitian............................................................ 30
3.7. Tempat dan Waktu.................................................... 31
3.8. Analisa Hasil ............................................................. 31
BAB IV HASIL DAN PEMBAHASAN ........................................ 32
   4.1 Hasil Penelitian .......................................................... 35
   4.2 Pembahasan ............................................................. 36
BAB V KESIMPULAN DAN SARAN ......................................... 40
   5.1. Kesimpulan .............................................................. 40
   5.2. Saran................................................................. 41
DAFTAR PUSTAKA ................................................................. 42
