HALAMAN PENGESAHAN........................................................................................................ ii
SURAT PERNYATAAN............................................................................................................... iii
PRAKATA...................................................................................................................................... iv
DAFTAR ISI.................................................................................................................................. vi
DAFTAR SINGKATAN ................................................................................................................... xi
DAFTAR TABEL........................................................................................................................... xii
DAFTAR GAMBAR....................................................................................................................... xii
DAFTAR LAMPIRAN.................................................................................................................... xiv
INTISARI...................................................................................................................................... xv
BAB I PENDAHULUAN .............................................................................................................. 1
  1.1 Latar Belakang .................................................................................................................... 1
  1.2 Rumusan Masalah .............................................................................................................. 5
  1.3 Tujuan Penelitian .............................................................................................................. 5
    1.3.1 Tujuan Umum .............................................................................................................. 5
    1.3.2 Tujuan Khusus .......................................................................................................... 5
  1.4 Manfaat Penelitian ........................................................................................................... 6
    1.4.1 Manfaat Teoritis ........................................................................................................ 6
    1.4.2 Manfaat Praktis ........................................................................................................ 6
BAB II TINJAUAN PUSTAKA ..................................................................................................... 8
  2.1 Sindroma Down ................................................................................................................. 8
    2.1.1 Definisi Sindroma Down ............................................................................................ 8
2.1.2 Penyebab Sindroma Down.................................................................9
2.1.3 Jenis-jenis Sindroma Down...............................................................9
2.1.4 Diagnosis Sindroma Down...............................................................11
2.1.5 Kondisi Lain yang Menyertai Sindroma Down.................................14

2.2 Status Gizi .............................................................................................15
  2.2.1 Definisi Status Gizi...........................................................................15
  2.2.2 Faktor-faktor yang Mempengaruhi Status Gizi.................................15
  2.2.3 Derajat Status Gizi...........................................................................17
  2.2.4 Cara Pengukuran Status Gizi.............................................................19

2.3 Riwayat BBL ..........................................................................................20
  2.3.1 Definisi BBL .....................................................................................20
  2.3.2 Klasifikasi BBL ................................................................................21

2.4 Riwayat Penyakit Infeksi Berulang .......................................................23
  2.4.1 Riwayat Diare Berulang.................................................................23
    2.4.1.1 Definisi Diare Berulang..............................................................23
    2.4.1.2 Penyebab Diare ........................................................................23
  2.4.2 Riwayat ISPA Berulang .................................................................25
    2.4.2.1 Definisi ISPA Berulang..............................................................25
    2.4.2.2 Penyebab ISPA ..........................................................................25
    2.4.2.3 Klasifikasi ISPA ........................................................................26

2.5 Usia Anak Mampu Menerima Makanan Solid .....................................26
  2.5.1 Definisi Makanan Solid .................................................................26
  2.5.2 Jenis Makanan MP-ASI .................................................................27
2.5.3 Jenis Makanan Solid.................................................................28
2.5.4 Perbandingan Zat Gizi yang Terkandung Dalam
Makanan Solid, ASI, dan Susu Formula ..............................28
2.5.5 Kemampuan Anak Menelan Makanan Solid...............31
2.5.6 Penyebab Gangguan Anak Terlambat Mencerna
Makanan Solid.............................................................................31

2.6 Hubungan Antara Faktor-Faktor Risiko Terhadap Tingkat Status
Gizi Anak Sindroma Down.................................................................35
2.6.1 Riwayat Berat Badan Lahir (BBL) .................................35
2.6.2 Riwayat Penyakit Infeksi Berulang.................................35
2.6.3 Usia Anak Mulai Mampu Menerima Makanan Solid.......36

2.7 Kerangka Teori........................................................................38
2.8 Kerangka Konsep.................................................................39
2.9 Hipotesis...............................................................................39

BAB III METODE PENELITIAN..................................................40
3.1 Jenis Penelitian.................................................................40
3.2 Variabel dan Definisi Operasional ......................................40
  3.2.1 Variabel.............................................................................40
  3.2.2 Definisi Operasional.........................................................40
3.3 Populasi dan Sampel..........................................................43
  3.3.1 Populasi.............................................................................43
  3.3.2 Sampel..............................................................................44
  3.3.3 Besar Sampel..................................................................44
3.3.4 Teknik sampling.................................................................45
3.4 Instrumen dan Bahan Penelitian................................................46
  3.4.1 Kuesioner........................................................................46
3.5 Cara Penelitian ........................................................................48
  3.5.1 Perencanaan......................................................................48
  3.5.2 Pelaksanaan Penelitian ..................................................48
3.6 Tempat dan Waktu..................................................................49
  3.6.1 Tempat Penelitian ............................................................49
  3.6.2 Waktu Penelitian ..............................................................49
3.7 Analisis Hasil............................................................................49
  3.7.1 Analisis univariat ...............................................................50
  3.7.2 Analisis Bivariat .................................................................50
  3.7.3 Analisis Multivariat ............................................................50

BAB IV HASIL PENELITIAN DAN PEMBAHASAN .................. 52
4.1 Hasil Penelitian .......................................................................52
  4.1.1 Analisis Univariat .............................................................53
  4.1.2 Analisis Bivariat ...............................................................54
  4.1.3 Analisis Multivariat ............................................................58
4.2 Pembahasan ..............................................................................59
  4.2.1 Riwayat BBL .................................................................59
  4.2.2 Riwayat Penyakit Infeksi Berulang .................................60
  4.2.3 Usia Anak Mulai Mampu Menerima Makanan Solid ......62
4.3 Keterbatasan Penelitian ...............................................................64
BAB V SIMPULAN DAN SARAN ................................................................. 66
  5.1 Simpulan .....................................................................................66
  5.2 Saran..........................................................................................67
