DAFTAR ISI .............................................................................................................. x
DAFTAR TABEL .......................................................................................................... xii
DAFTAR GAMBAR ..................................................................................................... xiii
ABSTRAK .................................................................................................................. xvi

BAB I PENDAHULUAN ............................................................................................... 1
  1.1. Latar Belakang ..................................................................................................... 1
  1.2. Perumusan Masalah ........................................................................................... 1
  1.3. Pembatasan Masalah ........................................................................................ 1
  1.4. Tujuan Tugas Akhir .......................................................................................... 2
  1.5. Manfaat ............................................................................................................. 2
  1.6. Sistematika Penulisan ....................................................................................... 2

BAB II TINJAUAN PUSTAKA DAN LANDASAN TEORI ........................................ 4
  2.1. Tinjauan Pustaka ............................................................................................... 4
  2.2. Landasan Teori .................................................................................................. 5
    2.2.1. Pengolahan Citra Digital ............................................................................ 5
    2.2.2. Augmented Reality .................................................................................... 5
    2.2.3. Marker ........................................................................................................ 7
    2.2.4. Unity 3D ..................................................................................................... 7
    2.2.5. Blender ....................................................................................................... 8
    2.2.6. Vuforia ....................................................................................................... 8
    2.2.7. Android ..................................................................................................... 9
    2.2.8. Flowchart .................................................................................................. 10
BAB III PERANCANGAN SISTEM .................................................................12
3.1. Analisa Kebutuhan ........................................................................12
3.2. Metode pengembangan aplikasi ..................................................13
3.3. Perancangan Sistem ...................................................................14
   3.3.1. Flowchart ...........................................................................14
   3.3.2. User Interface .....................................................................23
BAB IV IMPLEMENTASI DAN PENGUJIAN .........................................29
  4.1. Implementasi Sistem .................................................................29
     4.1.1. Implementasi Instalasi Aplikasi .........................................29
     4.1.2. Implementasi Marker ..........................................................30
     4.1.3. Implementasi Database ......................................................34
     4.1.4. Implementasi Aplikasi dan Antarmuka ............................35
  4.2. Pengujuan Perangkat Lunak .....................................................40
     4.2.1. Pengujuan Aplikasi ............................................................40
     4.2.2. Pengujuan Marker ............................................................42
BAB V PENUTUP ....................................................................................49
  5.1. Kesimpulan ................................................................................49
  5.2. Saran .........................................................................................49
