## BAB I PENDAHULUAN ................................................................. 1

1.1 Latar Belakang ................................................................. 1
1.2 Perumusan Masalah ........................................................... 3
1.3 Pembatasan Masalah ........................................................... 3
1.4 Tujuan .............................................................................. 3
1.5 Metode Penelitian dan Pengembangan Sistem........................ 3
1.6 Manfaat ........................................................................... 5
1.7 Sistematika Penulisan ........................................................ 5

## BAB II LANDASAN TEORI ............................................................ 6

2.1 Pengertian Sistem Informasi ............................................... 6
2.2 Sistem Pengaduan Masyarakat ............................................. 6
  2.2.1 Pengertian sistem pengaduan masyarakat ......................  6
  2.2.2 Undang – Undang Pengaduan masyarakat ......................  6
  2.2.3 Manajemen Pengaduan Masyarakat .............................. 7
  2.2.4 Ruang Lingkup Pengaduan ......................................... 8
  2.2.5 Penelitian Terdahulu ................................................... 9
2.3 Web Responsive ................................................................. 15
2.4 HTML ............................................................................... 16
2.5 CSS (Cascading Style Sheet) ............................................... 17
BAB III PERANCANGAN SISTEM ............................................ 22
3.1 Analisa Proses Bisnis .................................................. 22
3.2 Analisa Masalah .......................................................... 25
3.3 Identifikasi Sistem ....................................................... 26
3.4 Analisa pengguna system .............................................. 26
3.5 Analisa alat dan bahan ............................................... 27
3.6 Perancangan Pemodelan ............................................... 27
  3.6.1 Usecase diagram ................................................... 28
  3.6.2 Class diagram ....................................................... 29
  3.6.3 Activity Diagram .................................................. 30
  3.6.4 Sequence Diagram ................................................ 35
3.7 Perancangan Database .................................................. 43
3.8 Perancangan Desain Antar Muka .................................... 45
  3.8.1 Rancangan antar muka admin .................................. 45
BAB IV IMPLEMENTASI DAN PENGUJIAN ......................... 60
4.1. Implementasi Sistem ................................................... 60
  4.1.1 Batasan implementasi ............................................. 60
  4.1.2 Implementasi persiapan pengkodean ......................... 60
  4.1.3 Implementasi perangkat keras .................................. 66
  4.1.4 Implementasi antar muka ........................................ 66
4.2. Pengujian .................................................................. 89
  4.2.1 Rencana pengujian .................................................. 89
  4.2.2 Kasus dan hasil pengujian ...................................... 90
BAB V KESIMPULAN ......................................................... 97
5.1. Kesimpulan ............................................................... 97
5.2. Saran .................................................................... 97
