

## TABLE OF CONTENT

Chapter	Content	Page
	TITLE PAGE .....	i
	APPROVAL .....	ii
	PROCESS VERBAUX .....	iii
	MOTTO .....	iv
	DEDICATION .....	v
	ACKNOWLEDGEMENT .....	vi
	ABSTRACT .....	viii
	ABSTRAK .....	ix
	TABLE OF CONTENT .....	x
	LIST OF TABLE .....	xiii
	LIST OF FIGURE .....	xiv
	ABBREVIATIONS .....	xv
I	INTRODUCTION .....	1
	1.1. Background Statement .....	1
	1.2. The Objective of the Research .....	4
	1.3. The Benefit of the Research .....	4
	1.4. Scope of Study .....	4
II	LITERATURE REVIEW .....	5
	2.1. Binders .....	5
	2.2. Behavior of bitumen binder .....	6
	2.3. The reasons to modify bitumen binders .....	8
	2.4. The role of modifying bitumen in hot mix asphalt (HMA) mixtures .....	8
	2.5. History, use, and benefits oh the present bitumen modification .....	11

2.6. Temperature susceptibility.....	12
2.6.1. Penetration Index.....	12
2.7. Hot Mix Asphalt Mixtures .....	14
2.7.1. Stone Mastic Asphalt bitumen mixtures .....	14
2.8. Testing the Performance of Hot Mix Asphalt (HMA) mixtures ..	15
2.8.1. Indirect Tension Fatigue Test .....	16
2.8.2. Static Uniaxial Creep Test .....	18
2.8.3. Wheel Tracking Test .....	20
2.8.4. Moisture Susceptibility Test .....	21
2.9. Modifier Use in The Research .....	21
2.9.1. The Polyethylene terephthalate .....	21
2.10. Summary of The Literature Review .....	22
III RESEARC DESIGN AND METODHOLOGY .....	24
3.1. Research Location .....	24
3.2. Research Periode .....	25
3.3. Flow Chart .....	25
3.4. Literature Review.....	26
3.5. Preparation of materials .....	26
3.6. Bitumen Characterization .....	27
3.7. Materials Test .....	27
3.7.1 Softening Point Test .....	27
3.7.2. Specific Gravity Test.....	29
3.7.2. Penetration Test.....	30
3.8. Determination of PI Content .....	31
3.9. Aggregate Characterization .....	31
3.10. Materials Test .....	32
3.10.1 Coarse and fine aggregate .....	32
3.10.2. Gradation limits of combined aggregates .....	32
3.11. Optimum Bitumen Content .....	33
3.12. Determination of mixing variables of Bitumen and PET.....	33
3.13. Hot Mix Asphalt (HMA) mixtures.....	35

3.13.1 Stone Mastic Asphalt.....	35
3.14. Marshall Stability and Flow Test.....	35
IV     RESULT AND DISCUSSION .....	37
4.1. Bitumen Characterization .....	37
4.2. Mixing Bitumen with PET .....	39
4.3. Penetration Test .....	40
4.4. Softening Point .....	41
4.5. Penetration Index .....	42
4.6. Using PET –Modified Bitumen as Binder of Stone Mastic Asphalt 14 (SMA) .....	42
4.7. Mix Design of SMA 14 – Determination of Optimum Bitumen Content .....	43
4.8. Marshall stability and flow testing .....	46
CHAPTER V CONCLUTIONS .....	49

## LIST OF TABLE

<b>Table No</b>	<b>Content</b>	<b>Page</b>
2.1	PET Intrinsic Viscosity Range.....	22
3.1	Stone Mastic Asphalt .....	33
4.1	Bitumen Characterization .....	37
4.2	Bitumen Characterization .....	39
4.3	Statistical Analysis for all Test Result .....	40
4.4	Marshall Test for SMA-14 to Determine Optimum Bitumen Content .....	45
4.5	The Result of Compare Neat Bitumen with Bitument Modified .....	46
4.5a	Marshall Test for SMA-14 Using Neat Bitumen .....	47
4.5b	Marshall Test for SMA-14 Using PET – 20% Content.....	48

## LIST OF FIGURE

Figure No	Content	Page
1.1	Basic Flexible Pavement Structure .....	2
1.2	Load Distributions On Flexible Pavement .....	2
2.1	Bitument-time Temperature Dependency .....	6
2.2	Viscoelastic Behaviour of Bitumen .....	7
2.3	Visco-elastic Responses of an HMA Under Static Load .....	9
2.4	Visco-elastic Responses of An HMA Under Moving Wheel Load...	10
2.5	Nomograph to Determine Penetration Index (SP/Pen).....	13
2.6	a. Indirect Tensial Test (ITT) During Loading ; b. ITT at Failure ....	16
2.7	Typical Creep Relationship .....	18
3.1	Flow chart of Research Plant.....	25
3.2	Process of Softening Point Test.....	28
3.3	Apparatus for the Bitumen Penetration Test .....	31
3.4	Polyethylene terephthalate grains size.....	32
3.5	Illustration of Blending PET with Bitumen.....	32
4.1	Nomograph to Determine Penetration Index (SP/pen).....	38
4.2	Student t Distribution .....	39
4.3	Regrassion Model for Penetrasion Test .....	40
4.4	Regression Model for Softening Point Test .....	41
4.5	Regression Model for Penetration Index (PI) .....	42
4.6	Marshall Test Result to Determine Optimum Bitumen Content .....	44
