BAB I PENDAHULUAN ............................................................................................... 1
A. Latar Balakang ........................................................................................................ 1
B. Rumusan Masalah .................................................................................................. 6
C. Tujuan dan Manfaat Penelitian ............................................................................. 6
   1. Tujuan Penelitian ................................................................................................. 6
      a. Tujuan Umum .................................................................................................. 6
      b. Tujuan Khusus ................................................................................................ 6
   2. Manfaat Penelitian .............................................................................................. 7
      a. Bagi Peneliti .................................................................................................... 7
      b. Bagi Akademisi .............................................................................................. 7
      c. Bagi Masyarakat ............................................................................................ 7
BAB II TINJAUAN PUSTAKA

A. Landasan Teori ................................................................. 8

1. Karies Gigi ................................................................. 8
   a. Faktor Penyebab dan Proses Terjadinyakaries Gigi .......... 10
   b. Manifestasi Klinis .................................................... 12
   c. Jenis Karies Gigi .................................................... 13

2. Perilaku Konsumsi Jajanan Kariogenik ................................. 14
   a. Definisi Perilaku Konsumsi ....................................... 14
   b. Frekuensi Konsumsi Jajanan Kariogenik .................... 17

3. Jajanan Kariogenik .................................................. 18
   a. Bentuk Fisik Jajanan Kariogenik ................................. 19
   b. Jenis Jajanan Kariogenik ........................................ 19

4. Anak Usia Sekolah .................................................... 20
   a. Ciri-Ciri Anak Usia Sekolah ..................................... 20
   b. Pertumbuhan Gigi Anak .......................................... 23
   c. Pemeliharaan Kesehatan Gigi dan Anak Usia Sekolah
      (6-12 Tahun) .......................................................... 24

B. Kerangka Teori .......................................................... 26

C. Hipotesa ................................................................. 27

BAB III METODE PENELITIAN ............................................. 28

A. Kerangka Konsep ....................................................... 28

B. Variabel Penelitian .................................................... 28

C. Jenis dan Desain Penelitian .......................................... 30

D. Populasi dan Sampel Penelitian ...................................... 31

E. Tempat dan Waktu Penelitian ........................................ 32
F. Definisi Operasional Variabel ................................................................. 33
G. Instrumen/Alat Pengumpulan Data ............................................................... 34
H. Metode Pengumpulan Data ........................................................................... 35
I. Validitas dan Reliabilitas ................................................................................ 36
J. Rencana Analisis Data .................................................................................. 38
K. Etika Penelitian ............................................................................................. 40
BAB IV HASIL PENELITIAN .............................................................................. 42
   A. Pengantar Bab .............................................................................................. 42
   B. Karakteristik Responden ............................................................................. 42
   C. Uji Validitas dan Reliabilitas .................................................................... 43
   D. Analisis Univariat ...................................................................................... 45
   E. Analisis Bivariat ......................................................................................... 56
BAB V PEMBAHASAN ......................................................................................... 63
   A. Pengantar Bab .............................................................................................. 63
   B. Interpretasi Dan Diskusi Hasil ................................................................... 63
   C. Keterbatasan Penelitian ............................................................................. 68
   D. Implikasi Keperawatan ............................................................................. 68
BAB VI KESIMPULAN DAN SARAN ................................................................. 70
   A. Kesimpulan ................................................................................................ 70
   B. Saran .......................................................................................................... 70
