PRAKATA ................................................................................................................................ iv
DAFTAR ISI .......................................................................................................................... vi
DAFTAR SINGKATAN ......................................................................................................... x
DAFTAR TABEL ................................................................................................................... xi
DAFTAR GAMBAR ............................................................................................................ xii
DAFTAR LAMPIRAN .......................................................................................................... xiii
INTISARI ................................................................................................................................ xiv

BAB I ....................................................................................................................................... 1

1.1 Latar Belakang .............................................................................................................. 1

1.2 Rumusan Masalah ....................................................................................................... 3

1.3 Tujuan Penelitian ....................................................................................................... 3

1.3.1 Tujuan Umum .......................................................................................................... 3

1.3.2 Tujuan Khusus ....................................................................................................... 4

1.4 Manfaat Penelitian ..................................................................................................... 4

1.4.1 Manfaat teoritis ..................................................................................................... 4

1.4.2 Manfaat praktis ..................................................................................................... 5

BAB II ..................................................................................................................................... 6

TINJAUAN PUSTAKA .......................................................................................................... 6

2.1 Kolesterol ...................................................................................................................... 6

2.1.1 Definisi Kolesterol ................................................................................................. 6

2.1.2 Lipoprotein ........................................................................................................... 9

2.1.3 LDL (LowDensity Lipoprotein) ........................................................................... 10

2.2 Pepaya (Carica papaya L.) ....................................................................................... 14
2.2.1 Klasifikasi Pepaya (*Carica papaya L.*) ..................................15
2.2.2 Sinonim dan Nama Daerah.....................................................15
2.2.3 Habitat Pepaya (*Carica papaya L.*)......................................16
2.2.4 Morfologi Pepaya (*Carica papaya L.*)..................................16
2.2.5 Kandungan Kimia Buah Pepaya (*Carica Papaya L.*) ..........17

2.3 Pengaruh Kandungan Kimia Buah Pepaya (*Carica papaya L.*)
Terhadap Kadar LDL dalam Darah..............................................17

2.3.1 Flavonoid.............................................................................17
2.3.2 Saponin................................................................................18
2.3.3 Tamin.................................................................................19
2.3.4 Pektin.................................................................................19

2.4 Ekstrak Buah Pepaya (*Carica papaya L.*).................................20

2.5 Lovastatin..............................................................................21

2.6 Diet Tinggi Lemak..................................................................22

2.7 Tikus Putih Jantan Rattus norvegicus....................................23

2.7.1 Taksonomi...........................................................................23
2.7.2 Morfologi Tikus Putih Jantan *Rattus norvegicus* ...............23
2.7.3 Sifat-sifat Tikus Putih Jantan *Rattus norvegicus*.................24

2.8 Kerangka Teori .....................................................................26

2.9 Kerangka Konsep...................................................................27

2.10 Hipotesis...............................................................................27

BAB III ....................................................................................28

METODE PENELITIAN...............................................................28
3.1 Jenis Penelitian dan Rancangan Penelitian ........................................... 28
3.2 Variabel Penelitian dan Definisi Operasional ........................................ 28
  3.2.1 Variabel Penelitian ........................................................................ 28
  3.2.2 Definisi Operasional ...................................................................... 29
3.3 Populasi dan Sampel ............................................................................ 34
  3.3.1 Populasi Penelitian ....................................................................... 34
  3.3.2 Sampel .......................................................................................... 34
3.4 Instrumen Penelitian ............................................................................ 36
  3.4.1 Instrumen Penelitian ....................................................................... 36
  3.4.2 Bahan yang digunakan dalam penelitian ........................................ 36
3.5 Cara Penelitian .................................................................................... 37
  3.5.1 Cara Pembuatan Ekstrak Buah Pepaya .......................................... 37
  3.5.2 Dosis Penelitian ........................................................................... 37
    3.5.2.1 Penetapan dosis lovastatin ....................................................... 37
    3.5.2.2 Penetapan dosis ekstrak buah pepaya (*Carica papaya* *L.*) ....... 38
    3.5.2.3 Telur puyuh ............................................................................. 38
3.6 Prosedur Penelitian ............................................................................. 39
  3.6.1 Persiapan ....................................................................................... 39
  3.6.2 Pemberian Perlakuan ..................................................................... 40
  3.6.3 Setelah Perlakuan .......................................................................... 41
3.7 Waktu dan Tempat Penelitian .............................................................. 41
3.8 Alur Penelitian ..................................................................................... 42
BAB IV ................................................................. 44
HASIL PENELITIAN DAN PEMBAHASAN ........................................... 44
  4.1 Hasil Penelitian ........................................................................ 44
  4.2 Pembahasan ............................................................................ 48

BAB V .................................................................................................. 52
KESIMPULAN DAN SARAN ............................................................... 52
  5.1 Kesimpulan .............................................................................. 52
  5.2 Saran ...................................................................................... 53
