INTISARI ......................................................................................................................................... xiii
BAB I PENDAHULUAN ............................................................................................................... 1
1.1. Latar Belakang ......................................................................................................................... 1
1.2. Rumusan masalah .................................................................................................................... 3
1.3. Tujuan penelitian ..................................................................................................................... 3
1.3.1. Tujuan Umum ...................................................................................................................... 3
1.3.2. Tujuan Khusus .................................................................................................................... 3
1.4. Manfaat Penelitian .................................................................................................................. 4
1.4.1. Manfaat Teoritis ................................................................................................................ 4
1.4.2. Manfaat Praktis ................................................................................................................ 4
BAB II TINJAUAN PUSTAKA ...................................................................................................... 5
2.1. MDA (Malondialdehyde) ....................................................................................................... 5
2.1.1. Definisi ............................................................................................................................. 5
2.1.2. Proses Terbentuknya Malondialdehyde (MDA) ............................................................... 5
2.1.3. Malondialdehyde (MDA) Sebagai Penanda Stres Oksidatif .......................................... 6
2.1.4. Faktor – faktor yang mempengaruhi kadar MDA .......................................................... 7
<p>| 2.1.5. | Teknik Pemeriksaan Malondialdehyde (MDA) | 9 |
| 2.2. | Bekatul | 9 |
| 2.2.1. | Definisi Bekatul | 9 |
| 2.2.2. | Fungsi Bekatul Sebagai Antioksidan | 10 |
| 2.3. | Pengaruh <em>Monosodium Glutamate</em> (MSG) terhadap Kadar MDA | 11 |
| 2.4. | Pengaruh Pemberian Ekstrak Bekatul Terhadap Kadar MDA pada Tikus yang diinduksi MSG | 12 |
| 2.5. | Kerangka Teori | 15 |
| 2.6. | Kerangka Konsep | 15 |
| 2.7. | Hipotesis | 15 |
| BAB III METODE PENELITIAN | 16 |
| 3.1 | Jenis Penelitian dan Rancangan Penelitian | 16 |
| 3.2 | Variable dan Definisi Operasional | 16 |
| 3.2.1 | Variabel Penelitian | 16 |
| 3.2.2 | Definisi Operasional | 16 |
| 3.3 | Populasi dan Sampel | 17 |
| 3.3.1 | Populasi Penelitian | 17 |
| 3.3.2 | Sampel Penelitian | 17 |
| 3.4 | Instrumen dan Bahan Penelitian | 18 |
| 3.4.1 | Instrumen Penelitian | 18 |
| 3.4.2 | Bahan Penelitian | 19 |
| 3.5 | Cara Penelitian | 20 |
| 3.5.1 | Persiapan Penelitian | 20 |
| 3.5.2 | Pelaksanaan Penelitian | 20 |
| 3.5.3 | Pembuatan Ekstrak Bekatul | 22 |
| 3.5.4 | Cara Pemeriksaan MDA plasma darah | 22 |
| 3.6 | Tempat dan Waktu Penelitian | 23 |</p>
