BAB I PENDAHULUAN .......................................................................................... 1
  1.1 Latar Belakang ................................................................................................ 1
  1.2. Rumusan Masalah ...................................................................................... 3
  1.3 Tujuan Penelitian ........................................................................................ 4
    1.3.1 Tujuan Umum ....................................................................................... 4
    1.3.2 Tujuan Khusus ...................................................................................... 4
  1.4 Manfaat Penelitian ....................................................................................... 5
    1.4.1 Manfaat Teoritis ................................................................................... 5
    1.4.2 Manfaat Metodologis .......................................................................... 5

BAB II TINJAUAN PUSTAKA ............................................................................... 6
  2.1 Limfosit ............................................................................................................. 6
    2.1.1 Karakteristik Limfosit ........................................................................... 6
    2.1.2 Limfopoesis ........................................................................................... 6
    2.1.3 Mekanisme Kerja Limfosit .................................................................... 7
    2.1.4 Faktor- Faktor yang Mempengaruhi Jumlah Limfosit ....................... 8
  2.2 Mengkudu ........................................................................................................ 9
    2.2.1 Gambaran Umum ................................................................................ 9
    2.2.2 Nama Lain Mengkudu .......................................................................... 9
    2.2.3 Taksonomi ............................................................................................. 10
    2.2.4 Morfologi ............................................................................................... 10
    2.2.5 Kandungan Kimia Mengkudu ............................................................... 11
3.8 Analisis Hasil ........................................................................................................... 31

BAB IV HASIL PENELITIAN DAN PEMBAHASAN ........................................... 32
  4.1 Hasil Penelitian ....................................................................................................... 32
  4.2 Pembahasan ............................................................................................................ 36

BAB V KESIMPULAN DAN SARAN ......................................................................... 40
  5.1 Kesimpulan ............................................................................................................ 40
  5.2 Saran ....................................................................................................................... 41
