DAFTAR ISI ................................................................... x
DAFTAR TABEL ................................................................ xiii
DAFTAR GAMBAR ........................................................... xv
DAFTAR LAMPIRAN ......................................................... xvi
BAB I PENDAHULUAN ...................................................... 1
   A. Latar Belakang ............................................................. 1
   B. Batasan Masalah ........................................................ 4
   C. Rumusan Masalah ..................................................... 5
   D. Tujuan Penelitian ...................................................... 6
   E. Manfaat Penelitian .................................................... 7
BAB II LANDASAN TEORI ................................................. 9
   A. Belajar ................................................................... 9
   B. Pembelajaran Matematika ........................................... 16
   C. Aktivitas dan Motivasi Belajar ................................. 17
D. Model Pembelajaran Jigsaw ................................................................. 25
E. Model Pembelajaran STAD ................................................................. 28
F. Microsoft Powerpoint ............................................................................ 30
G. Tinjauan Materi ...................................................................................... 31
H. Kerangka Berpikir .................................................................................. 31
I. Hipotesis Penelitian.................................................................................. 34

BAB III METODE PENELITIAN ................................................................ 35
A. Jenis Penelitian ....................................................................................... 35
B. Lokasi dan Waktu Penelitian ................................................................. 35
C. Populasi dan Sampel penelitian .............................................................. 35
D. Uji Prasyarat Sampel .............................................................................. 36
E. Instrumen Penelitian .............................................................................. 38
F. Variabel Penelitian ................................................................................ 44
G. Desain Penelitian .................................................................................... 45
H. Prosedur Penelitian .............................................................................. 46
I. Pengumpulan Data ................................................................................... 47
J. Analisis dan Interpretasi Data ................................................................. 48

BAB IV HASIL PENELITIAN DAN PEMBAHASAN MASALAH .......... 54
A. Hasil Penelitian ..................................................................................... 54
B. Pembahasan Masalah ............................................................................ 75

BAB V PENUTUP ...................................................................................... 81
A. Simpulan ................................................................................................ 81
B. Saran ..................................................................................................... 81
